GRINTA ED ENTUSIASMO, SOMMATI A GUSTO E RICERCATEZZA

New Style Concept nasce con spirito di entusiasmo nel proprio settore, sfida nella ricerca e nell'innovazione, che ci consentono di non accontentarci mai.

La Nostra filosofia aziendale ci consente di trovarci ogni giorno in prima linea a 360° con clienti, fornitori e collaboratori, vivendo ogni singolo progetto con spirito critico dall'inizio alla fine. Tutto questo ci consente di capire pregi e difetti dei prodotti realizzati per quanto riguarda qualità, tendenze, materiali, costi, in funzione delle esigenze che il mercato ogni giorno ci richiede. Solo conoscendo i nostri prodotti e capendo le esigenze del mercato e del cliente, potremmo essere in grado di offrire qualcosa di differente, un servizio che soddisfi le necessità di un progetto di arredo funzionale. Tecnologia, materiali innovativi e colori sono il nostro punto di partenza per definire uno spazio commerciale, superando i canoni standard e tradizionali, rendendo unico ogni progetto singolo e differente per gusto. Ogni spazio espositivo viene definito un contrapporsi di volumi, colori, materiali e profumi; ogni oggetto deve essere opportunamente posizionato al servizio dell'interessato, "nulla si trova lì per caso", nemmeno chi si trova all'interno di quello spazio. Il risultato più eccellente che si può ottenere?

Capacità di creare emozioni, dando importanza al comfort del visitatore, massimo risalto visivo degli oggetti che verranno proposti e massima cura nella disposizione merceologica.

Il nostro obiettivo è quello di progettare uno spazio funzionale, che dia una identità ad ogni prodotto merceologico esposto, massima ricercatezza dei materiali, a seconda del settore commerciale Ferramente, Casalingo, Giardinaggi, Illuminotecnica, Elettronica, Telefonia, Ricambi, Officine specializzate Abbigliamento, Pelletteria, Cosmetica, Ottica, Accessori Sportivi, Cartolerie, Tabaccherie, Calzature, Farmacia, Ufficio e Casa.

I nostri sistemi di arredo espositivo sono caratterizzati da strutture in metallo ed alluminio, che verranno vestite con materiali innovativi e colori di tendenza. L'opportunità che viene data a chi vive questi ambienti è quella di poter modificare e personalizzare tali forme e colori a proprio gusto ed intuito, senza nessun vincolo, "aggiungendo /eliminando" elementi e componenti con molta facilità e semplicità, in qualsiasi momento, secondo le esigenze commerciali e di tendenza.

Diremmo che la somma di tutto questo ha dato i seguenti risultati: "Vogliamo essere differenti per gusto, identità e promotori di un progetto equo e sostenibile".

(N) Style Concept Progetta e realizza arredamenti commerciali e contract chiavi in mano, forniture di scaffali ed accessori per esposizione merci, pannelli dogati, ganci, espositori, banchi di servizio, banchi cassa e banchi reception.

GRIT AND ENTHUSIASM, ADDED TO TASTE AND REFINEMENT, MAKE THE DIFFERENCE.

New Style Concept is the result of a strong enthusiasm in furniture industry and a challenge in research and innovation, that pushes us to go on improving.

Our company philosophy puts us at the forefront and completely with customers, suppliers and collaborators, managing each single project with critical attitude from its beginning to the realization. That lets us understand merits and defects of realized products, as regards quality, trends, materials and costs, according to market requests, constantly changing.

Knowing the product and understanding both market requests and customer needs, we feel able to offer something different, that is a service meeting the requirement of a project of a functional furniture.

Technology, innovative materials and colours are our departure point to define a commercial space, exceeding standards and tradition and making every single project unique and different.

Each exhibition space is the result of a meeting of volumes, material colours and smells; each object is thought to be placed in its position for customer service, "nothing stands there by chance", neither the person who stands in that place. What is the most excellent result you can obtain?

The ability of creating emotions, giving importance to visitor's comfort, maximum visual prominence of the proposed objects and exasperated care of merchandise disposition.

Our target is projecting a functional space, able to give an identity to each exposed product and the maximum material refinement, according to the reference commercial sector: hardware, homecare, gardening, lighting, electronics, telephony, spare parts, specialized workshops, clothing, leather goods, cosmetics, optics, sport accessories, stationeries, tobacconists, footwear, pharmacy, office and home.

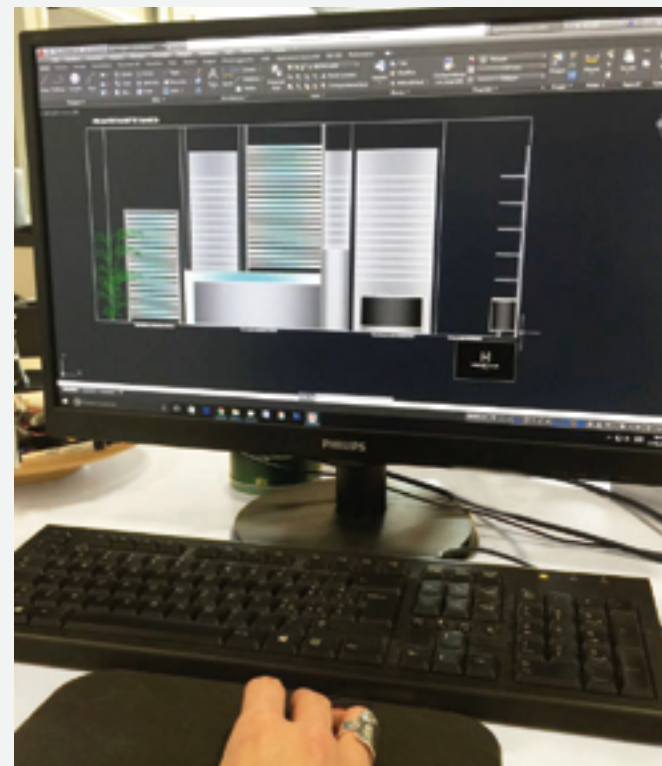

Our exhibition furniture systems are characterized by metal and aluminum structures, covered by innovative materials and trend colours.

We give you the possibility to modify and customize shapes and colours according to your personal taste and insight, without any restriction, adding and removing components easily and suddenly, according to commercial needs and trends.

The result is the following: "We would like to be different for taste and identity and promoter of an equitable and sustainable project."

(N) Style concept designs and realizes commercial furniture and turnkey contracts, supplies shelves and exhibition accessories, staved panels, hooks, exhibitors, service counters, cash counters and reception counters.

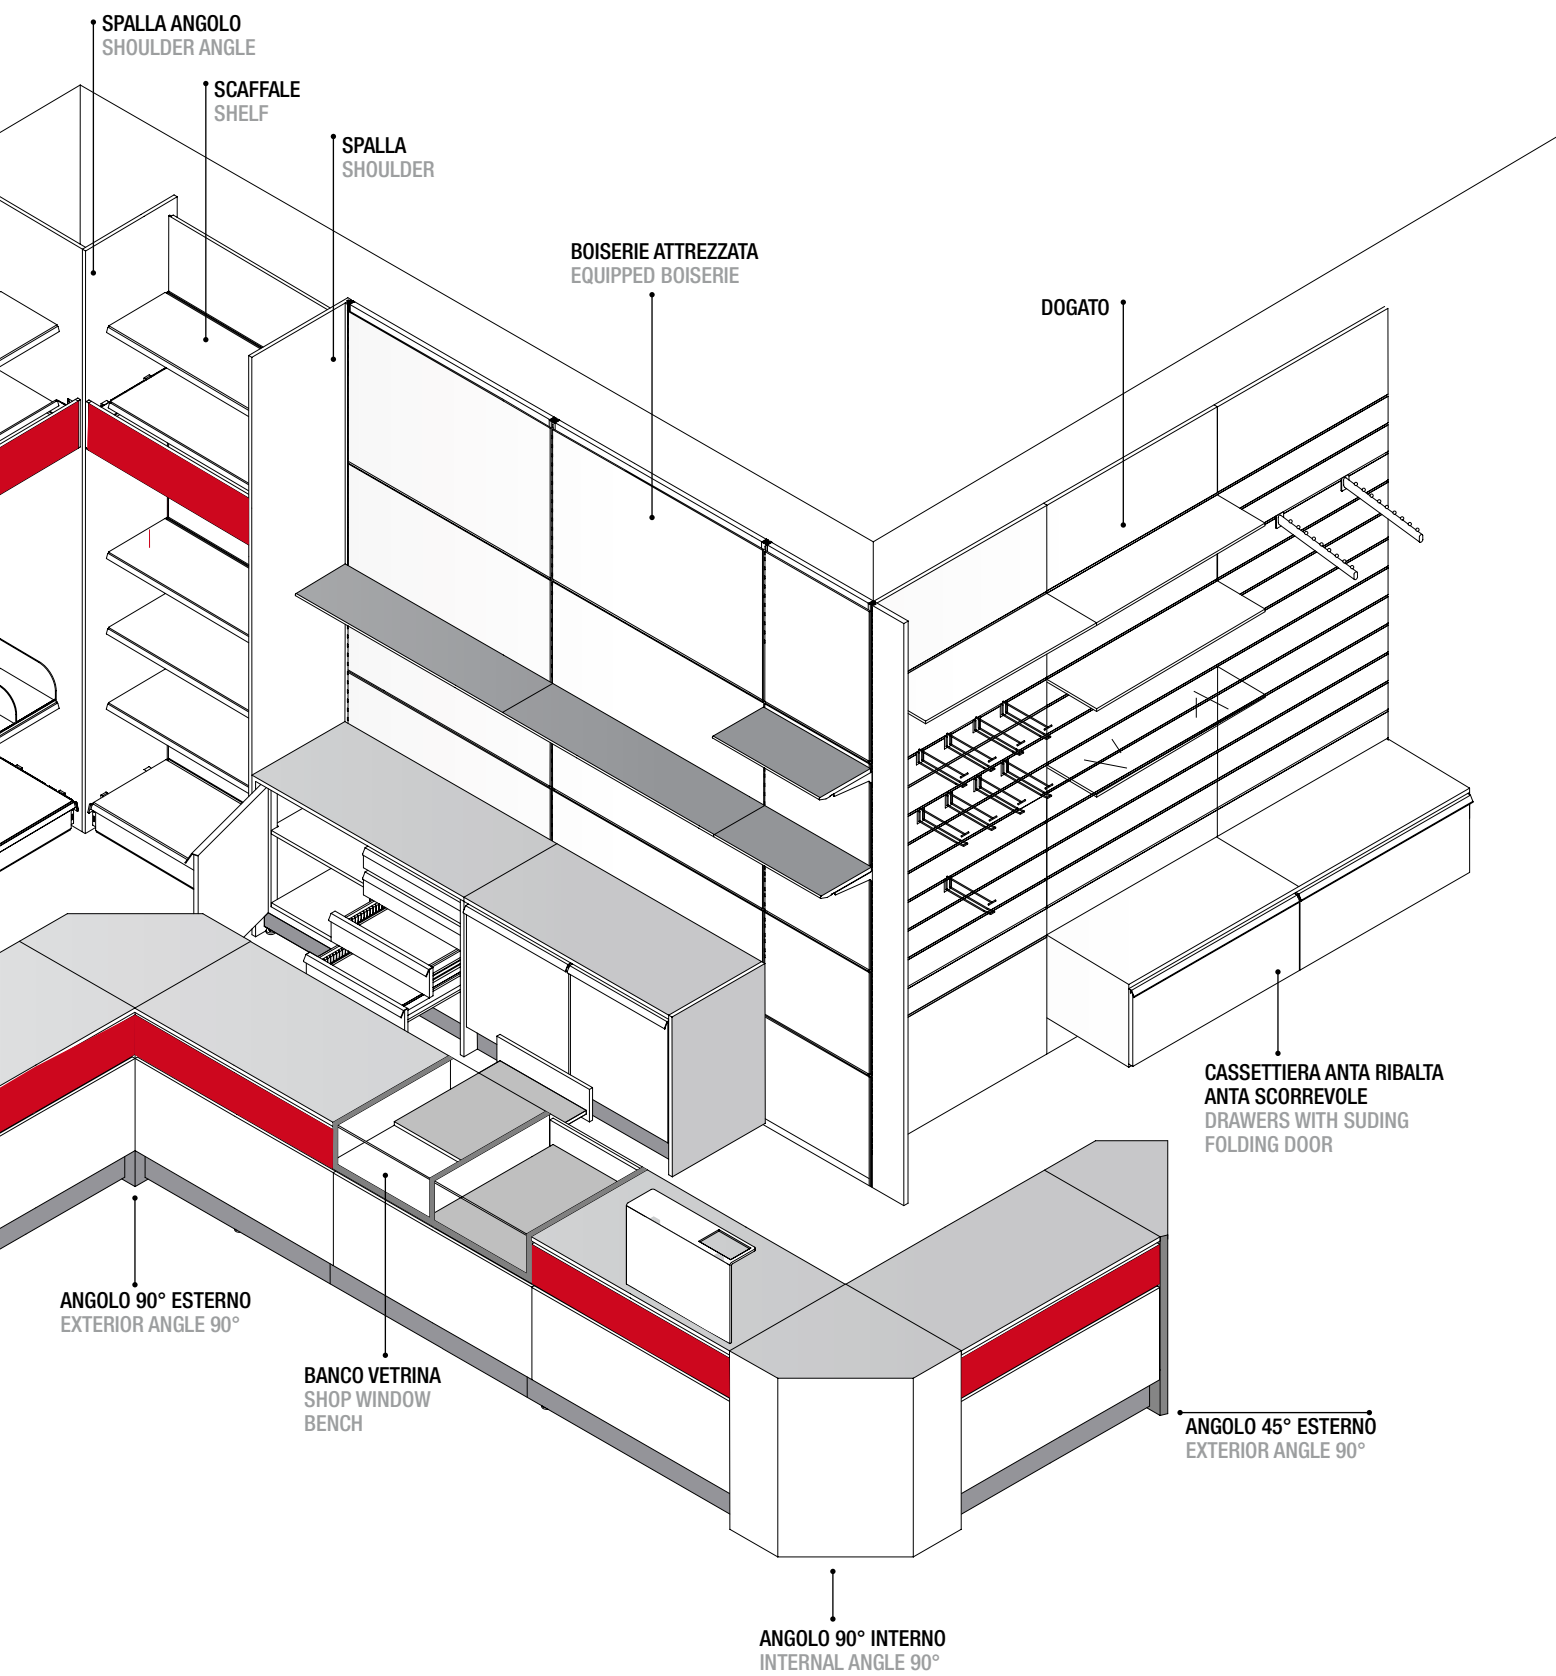

DAL PROGETTO ALLA REALIZZAZIONE, VANTAGGI DEL SERVIZIO CHIAVI IN MANO: FROM THE PROJECT TO ITS REALIZATION, THE ADVANTAGES OF THE TURNKEY SERVICE:

- Sopralluogo necessario per verificare le esigenze del cliente.
- Sviluppo della proposta d'arredo con realistici disegni o render 3D.
- Sviluppo di arredamento su misura o eventuali modifiche, adattamenti agli arredi standard, con la possibilità di personalizzare il tutto con laccature o lucidature a campione.
- Trasporto e montaggio con il nostro personale qualificato.
- Coordinamento delle imprese e dei fornitori, scandendo tempi di intervento e controllando l'esecuzione di ogni singola fase realizzativa.
- Gestione completa del cantiere, individuando tempestivamente la soluzione da adottare.
- Direzione dei lavori, controllando la qualità dei lavori eseguiti.
- Assistenza post- vendita.

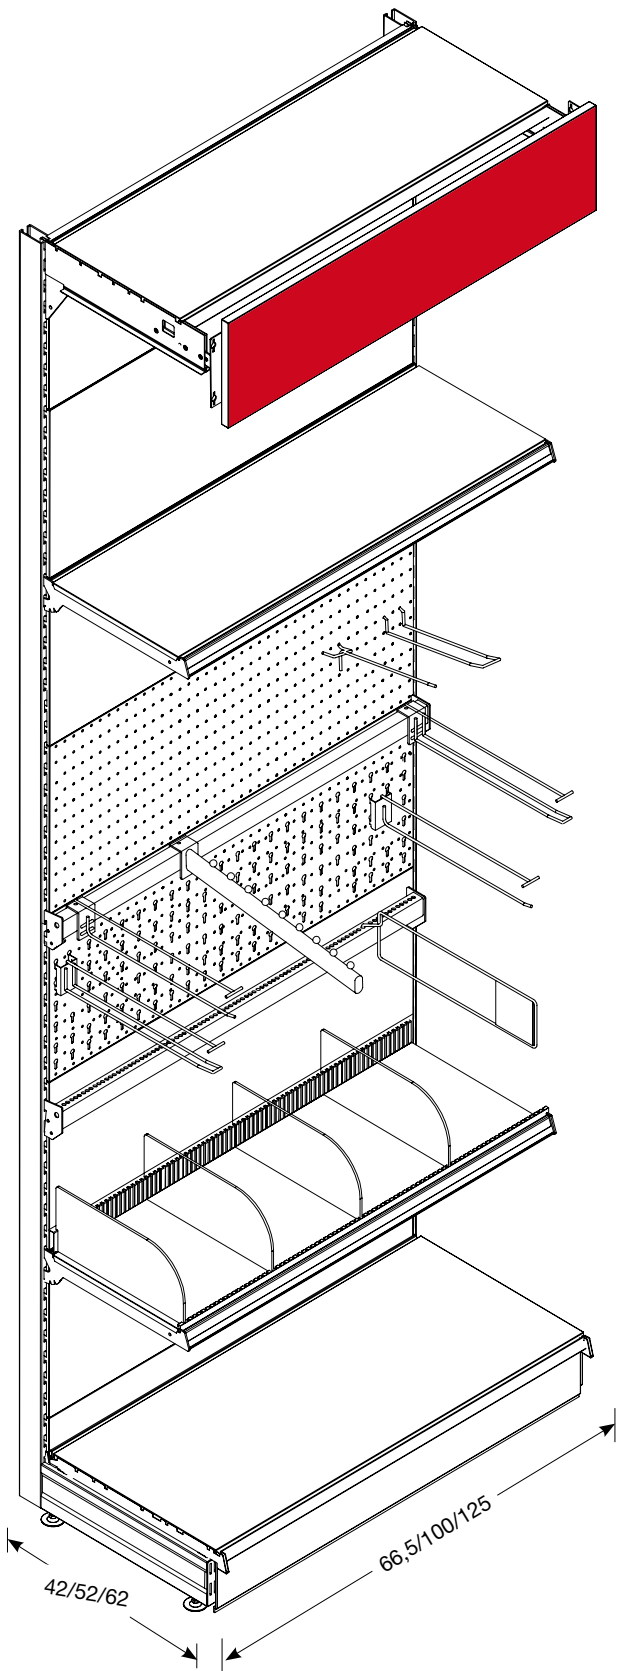

- Site inspection in order to understand customer needs.
- Development of the furnishing proposal with realistic drawings or render 3D.
- Development of custom furniture or (study/proposal of) possible adjustments to the standard furnishings, including the possibility of customizing the surface lacquering or polishing it.
- Transport and assembly edited by our qualified personnel.
- Coordination of the suppliers, monitoring response time and controlling the execution of each single production step.
- Whole yard management in order to be always ready to find out promptly the correct solution to practice.
- Construction supervision, checking the quality of services offered.
- Post-sales assistance.

SISTEMA MODULARE STYLE LIGHT

ADATTABILITÀ NELLE DIVERSE COMPOSIZIONI
ADAPTABILITY IN DIFFERENT COMPOSITIONS

Versatilità, ergonomia e le svariate collocazioni d'uso ed utilizzo in tutti i settori (commerciali, pubblici e produttivi) è la caratteristica dei nostri banchi. Banchi di Servizio, Banchi Cassa, Banchi Reception, Retro banchi, Banchi per Officine Specializzate. Struttura modulare e smontabile in alluminio e rivestimento in legno con caratteristiche tecniche innovative. La componibilità di questi elementi può variare a secondo delle esigenze, ed in qualsiasi momento (aggiungendo/sostituendo/ spostando/eliminando gli elementi che lo compongono). Il rivestimento in legno, "sganciabile" è stato studiato e realizzato per dare la possibilità al cliente, in qualsiasi momento di ispezionare o sostituire gli elementi stessi della facciata e del piano.

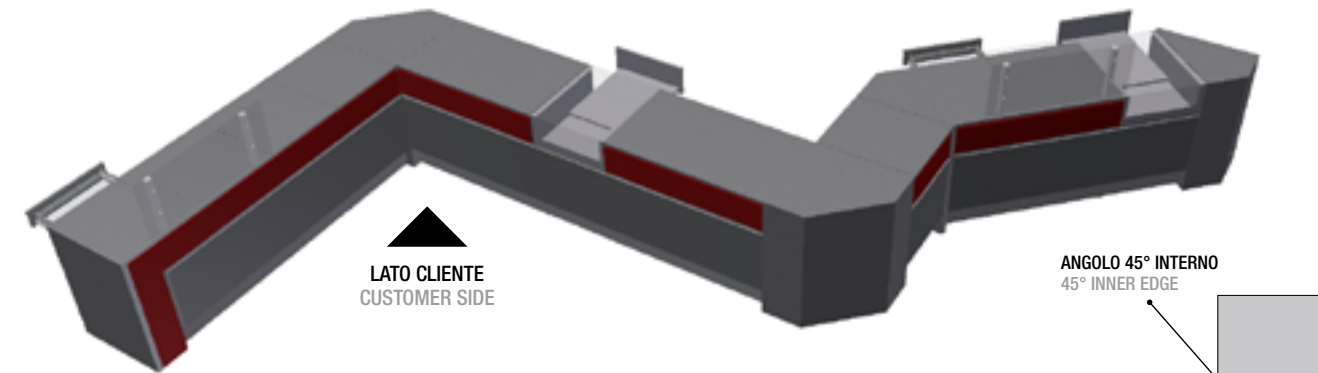

Opzioni di componibilità:
Tutti i banchi possono essere provvisti di banchi di raccordo ad angolo di 90°, di 60° e 45°, vetrinette, alzatine in vetro – plexglass - lamiera verniciata e legno.

The characteristics of our counters are versatility, ergonomics, various collocation uses and utilization in different sectors (commercial, public and productive): service counters, cash counters, reception counters, back counters and specialist workshop counters.

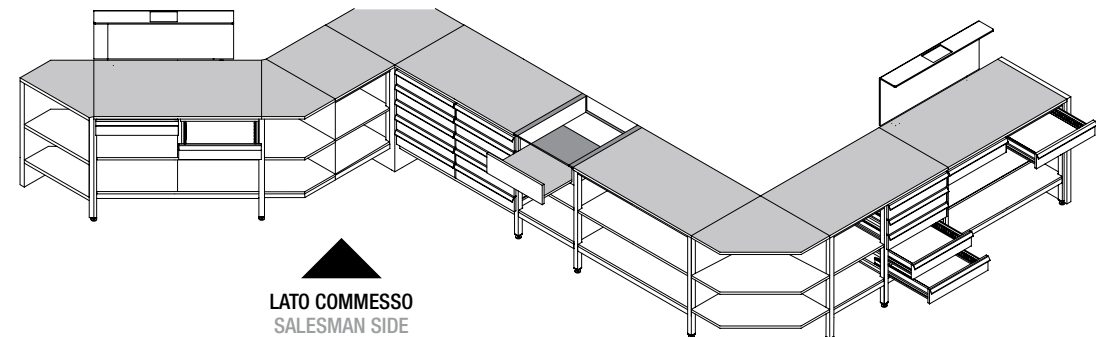

- Modular and removable aluminum wood-lined structure with innovative technical features.
- Modularity can change according to the request and at all stages (adding, changing, moving, removing any element).

Removable wood coating has been studied and realized to give customer the possibility to inspect and replace surface and facade elements.

Modularity options:
All counters are provided with angled connecting benches at 45/60/90°, showcases, glass/plaxyglas/painted sheet and wood.

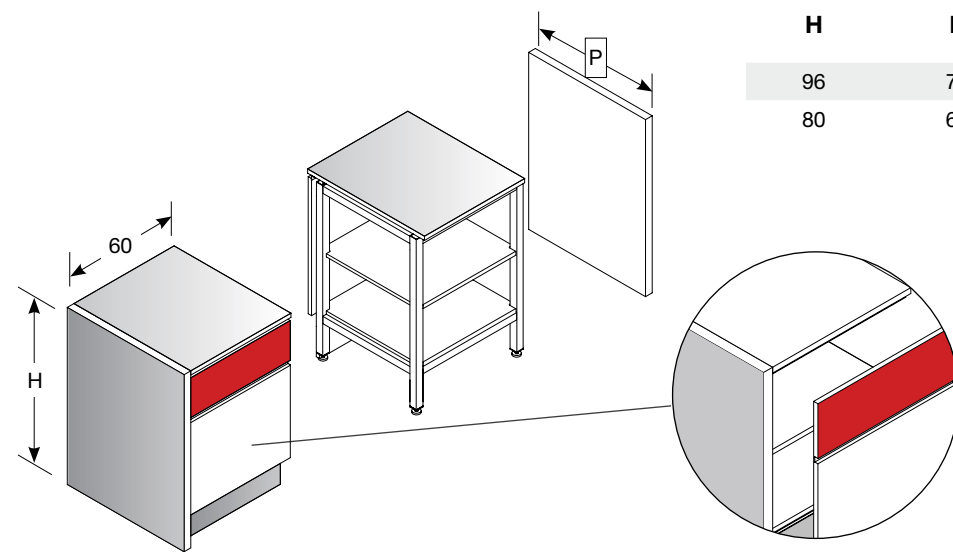

- Caratteristiche:**
Modello base con rivestimenti in bilaminato. Predisposizione per passaggio canaline di alimentazione e dati. Pannello frontale Facciata banco in Bilaminato, sganciabile ed asportabile. Piano Banco, con finitura anti graffio sganciabile ed asportabile, possibilità di fori passa cavi "su richiesta". Cassetti e ripiani con possibilità di inserimento, in qualsiasi momento, in qualsiasi posizione dei moduli.
- Possibilità di inserimento Luci a Led " su richiesta " Piedini regolabili.
- Features:**
• Base model with bilaminated coating, provision for passage of cable and data ducts, front panel, releasable and removable bilaminated bench facade, possibility of cable holes on demand.
- Drawers and shelves to be inserted in each module at every stage.
 - Possibility to insert Led lights on demand
 - Adjustable feet
